Ryan,

At the time of reclamation review with the State I met with Steve Freese and District Manager Mike Pollard. Expectations were discussed and agreed upon by all parties which included leaving the access road intact and not disturbing the already vegetated areas on the pad itself.

We are scheduled to seed the bare areas and I will notify all involved when this has been completed by the contractor, JB Sitner.

Would you please instruct me in the necessary documentation to make record of this negotiation and acceptance by the State?

Please note Steve's cc here for his corroboration.

Thank you very much.

Mark Bottrell

Mr. Bottrell,

If the surface owner would like to retain the access road for a specific use, you will need to request a 502 b. variance of the specific reclamation rules which will require a 1001 c. surface owner waiver. The COGCC has an operator guidance document which details the process and how to request the variance. This can be found at the following web link: <http://cogcc.state.co.us/reg.html#/opguidance>.

Let me know if you have any questions.

Thanks,

Ryan

Thanks Ryan.

Are you aware that the surface owner is the state of Colorado? Is the process the same?

Yes, I am aware and the process is the same.

Thanks
