**Spill/Remediation:**

Comment: Operator consultant notified COGCC of release on 9/27/2017 based on analytical data. Produced water vessel has been removed. Excavation of impacted soil has not begun. Remediation #8315 remains unresolved and should be incorporated into the remediation of the spill discovered on 9/21/2017.

Corrective Action: Submit a Form 27 for the removal of a partially buried produced water vessel. The Form 27 should include a workplan for the investigation and remediation of historical impacts discovered during the produced water vessel removal, and possibly the investigation of impacts to groundwater. Date: 11/03/2017
