VEGETATIVE COVER _____

Comment: This location does not meet reclamation requirements. An approximate 0.41 mile portion of access road has not been reclaimed that was used for oil and gas development. Operator sign and fence material around the entire well location remains at the well location. The well location appears to meet reclamation requirements and appears reflective of reference area levels. Refer to the attached inspection photos for more detail.

Corrective Action:	Perform reclamation in accordance to COGCC 1004 reclamation rules and requirements. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. The Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards. Final reclamation activities shall be complete no later than November 10, 2017.	Date	11/10/2017
