The surface locations of SRC Energy's proposed wells have been staked outside of the COGCC Rule 318A.a. Greater Wattenberg Area (GWA) Drilling Window and are being permitted as exception locations. SRC has obtained written permission from the surface owner by way of Surface Use Agreement (SUA). The Surface Use Agreement has waivers for Rule 318A.a for the GWA Drilling Window and are being permitted as exception locations and this can be noted in the originally approved Form 2's that are in the well files.

SRC Energy respectfully requests the COGCC to review the enclosed information and approve the requested exception location and Application for Permit to Drill for the wells on the subject pad.
