VEGETATIVE COVER \_\_\_\_\_

Comment:

Corrective Action:	<p>The access road and location remain per the requested variance which is being evaluated. There are areas along the road that are not adequately stabilized and there is undesirable weeds along the road. There is some desirable vegetation establishment at the location however, there are areas with predominately undesirable vegetation (Kochia sp.). There is a hunting blind installed at the northeastern corner of the location. Current landuse operations do not appear to be affecting revegetation and the soils do not appear to be compacted. Additionally no well marker was installed at the wellhead as indicated by the variance request. See Attached Photos</p> <p>Comply with 1004 Rules. Reseed disturbed areas along the access road and at the location to facilitate desirable vegetation establishment. Install well marker at the wellhead.</p>	Date	11/30/2017

		Multi-Well Location	<input type="checkbox"/>

**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Seeding	In Process	Seeding	Fail			
Comment:	There are signs of erosion occurring down the slopes of the road and there are no BMP's installed. No gravel was noticed along the access road as indicated by the variance request.					
Corrective Action:	Install or repair required BMPs per Rule 1002.f.					
	Date: 11/30/2017					
Pits:	<input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT					

**COGCC Comments**

Comment	User	Date
Operator must consult the surface owner to determine proper seed mixture to use prior to reseeding.	CostaR	10/10/2017
