RE: Rule 317.s. Statewide Fracture Stimulation Setback  
**WS-Sunrise 1-5-5: SWSE, Section 32, Township 6 North, Range 65 West, Weld County, CO**

Dear Operator,

Extraction Oil & Gas, Inc. (Extraction) is applying to the Colorado Oil and Gas Conversation Commission (COGCC) to drill the above referenced well. Per COGCC Rule 317.s., no horizontal wellbore's treated interval shall be located less than one hundred fifty (150) feet from any existing or permitted oil or gas wellbore's treated interval without the signed written consent of the operator of the encroached upon wellbore. As currently planned, the horizontal wellbore's proposed treated interval of the above well will lie within 150 feet of the treated interval of the captioned well:

Erbes 5-2H5, API #05-123-18339, operated by SRC Energy, Inc., Closest distance: **35** feet

Per COGCC Rules, Extraction is required to get the offset well operator's approval in writing and consent of said Rule 317.s. The well is planned as above to maximize mineral recovery. Also enclosed is a Well Location Plat that shows the planned wellbore.

Should you find the stimulation of the proposed wellbore acceptable please indicate so by signing the below section and returning the signed letter either via email to [aandrews@extractionog.com](mailto:aandrews@extractionog.com) or by mail. Please contact the undersigned at 720-481-2379 with any questions.

Sincerely,

Alyssa Andrews  
Regulatory Analyst  
Extraction Oil & Gas, Inc.

I, Nick Spence, officer, agent, or employee of SRL Energy Inc.  
operator of the affected well, with full power to execute the following, do hereby approve of the **WS-Sunrise 1-5-5** well  
as listed above in **Sec. 32-6N-65W** and grant consent to COGCC Rule 317.s. granting that this well may drilled as planned.

Signed  this 9<sup>th</sup> day of October, 2017
