General Comment:

This is a orphan well inspection with emphasis on critical maintenance and abandonment.

With no current operator this orphan well inspection included portions of May 2017 Flowline NTO to mark and inventory flowline risers. Due to location conditions and with no operator to provide assistance this inventory is informational only and may not identify all flowlines and risers.

Well was P&A 9/29/2014. Risers and flowlines associated with well/production equipment are still on location. Access roads and location reclamation has not been completed. Since this is a orphan location corrective actions identified will not be corrected but can be used to identify possible task for completion of final reclamation.

Location			
Lease Road:			
Type	Access		
comment:	Dirt access road.		
Corrective Action			Date:
Overall Good: <input type="checkbox"/>			
Signs/Marker:			
Type	WELLHEAD		
Comment:	Framed metal sign located just off entrance. Sign has been shot making some of the information unreadable.
