VEGETATIVE COVER \_\_\_\_\_

Comment: The site was reseeded in the spring of 2016 and two growing seasons have occurred since reclamation was performed. The vegetation has not established at the location and it appears that additional reclamation efforts are needed to successfully reclaim the location in a timely manner. See Attached Photos

Corrective Action: Comply with 1004 Rules. Reseed the location to facilitate desirable vegetation establishment. Date 03/01/2018

**COGCC Comments**

Comment	User	Date
Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.	CostaR	10/19/2017
Document number 2525008 listed Conditions of Approval for extension of corrective action deadline for performing reclamation at the State 16-1 location. The operator has failed to perform the conditions of approval. It does not appear that the operator has conducted vegetation monitoring to ensure successful re-vegetation. Navex failed to provide monthly status reports to COGCC Reclamation Specialist.	CostaR	10/13/2017
