Reclamation - Storm Water - Pit**Interim Reclamation:**

Date Interim Reclamation Started: _____ Date Interim Reclamation Completed: _____

Land Use: _____

Comment: Project area is surrounded by open grassland and gambel oak woodland. Revegetation is progressing within the outer revegetation areas. Rutted areas identified during the June 2016 inspection appear to have recently been graded and a berm placed around the perimeter of the working area that is seeded. See attached photos.

Unused or unneeded equipment onsite? _____

Comment _____

Pipe debris identified during the June 2016 reclamation inspection appears to have been removed. However, an unused pipe segment is present in the northwestern portion of the project area. Additionally, two frac tanks are present in the southwestern portion of the project area do not appear to be in use and need to be removed.

Corrective Action _____

Remove tanks and pipe segment.
