Unused or unneeded equipment onsite? _____

Comment The eastern and western portions of the well pad are lined with frac tanks. It is not apparent whether the tanks are on location to support drilling of the permitted 051-06140 well, or if they are stored on location.Corrective Action Provide documentation as to the use of the frac tanks on location via field inspection report resolution (FIRR) form. This documentation should describe what the tanks are being used for, why they are on location, and how long they are expected to remain. If the tanks are not on location to facilitate a well on the well pad, they need to be removed by November 26, 2017.Date **11/02/2017**
