Hi Christi and Ashley,

I'm working on corrections and general permitting review of the B-Farm 2A and APDs, and have a question.

The 2A (401088795) has the Surface Owner IS the mineral owner, IS committed, and HAS signed the lease. It also has the right to construct as "lease". The 9 APDs I'm looking at all have the opposite of this (SO is NOT MO, is not committed, has not signed, and RTC is SUA).

Can you please confirm these options are correct on the 2A/APDs?

Thanks!

Sabrina

Hi Sabrina,

Thanks for the email- please correct the 2A and **uncheck** the boxes: is the mineral owner, is committed and has signed the lease. Also, please change the right to construct to SUA.

Please give me a call if you have any questions!
