Comment:

The TPZ footages are estimates calculated through Directional Plotting Software—from where the production string (5 ½" casing) crosses the 460' setback hardline. The actual footages will be submitted with the Form 5A.

The triple combo log was ran on HFE 4 (123-44774).

The LAS version of the CBL is uploaded to show the vertical portion of GR.

There was an issue uploading the Directional Survey (PDF). It will be submitted via sundry.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
