CORRECTIVE ACTIONS:

1 CA# 94750

Corrective Action: Perform reclamation in accordance to COGCC 1000 series reclamation rules. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner or a seed mixture provided by the county Natural Resources Conservation Service. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production. Reclamation activities shall be completed by 11/15/17.

Operator  
Comment:

This well head site has been mowed and all foreign objects removed.

COGCC Decision: **Not Approved**

COGCC  
Representative:

Operator indicates the well head site was mowed. There were two (2) areas that needed further reclamation activities to be performed and if only mowing operations were performed, that is not sufficient by itself. If it is determined during an inspection at a future date that the Operator did not perform sufficient reclamation activities, then the corrective action date of November 15, 2017 will remain open until resolved.

#### OPERATOR COMMENT AND SUBMITTAL
