Comment: TA - The wellhead production tree has been removed and well is no longer connected to the flowline. Production equipment has been removed and current status at location does not reflect SI.

Review of electronic well file shows last production report was March 2016 and indicates Oil/Gas production was reported as 105/2 at that time. Well reported as SI since April 2016 with last submitted production report May 2017.

Corrective action not completed. Corrective action date remains the same to document days of non-compliance.

Corrective Action: Contact dnr\_cogccengineering@state.co.us with resolution plan.
