

Photo 1. View from the southeastern corner of the project area facing center.

Photo 2. View of the eastern portion of the project area from the southeastern corner facing northward. Revegetation is progressing but largely weedy with cheatgrass (*Bromus tectorum*) and Russian thistle (*Salsola tragus*).

Photo 3. View of the southern portion of the project area from the southeastern corner facing westward.

Photo 4. View of Russian knapweeds (*Acroptilon repens*) in the southern portion of the project area. Approximately 2000 individuals observed.

Photo 5. View of the northern portion of the project area from the northeastern corner facing westward. What appears to be surface owner trailers are stored in the western portion of the project area.
