

Photo 1. View from the northeastern corner of the project area facing center.

Photo 2. View of the northern portion of the project area from the northeastern corner facing westward. Vegetation is largely comprised of grasses such as crested wheatgrass (*Agropyron cristatum*) and annual weeds such as yellow tumblemustard (*Sisymbrium altissimum*).

Photo 3. View of the eastern portion of the project area from the northeastern corner facing southward.

Salt cedar

Photo 4. View of area in the western portion of the project area where salt cedar (*Tamarix* sp.) is becoming established and needs to be controlled. Deep ruts need to be seeded or otherwise stabilized.
