**RE: COGCC Rule 306.e.: Meetings with Building Unit Owners within a Buffer Zone Setback  
COGCC Rule 306.e.(5): Operator Certification  
G&D Hanks 27-N Pad: SWSE Section 27, Township 7 North, Range 66 West  
Weld County, Colorado**

Dear Director Lepore,

Bayswater Exploration & Production, LLC (Bayswater) has filed the Form 2A Oil and Gas Location Assessment (OGLA) for the proposed oil and gas pad referenced above.

Pursuant to COGCC Rule 305.c., Bayswater certifies that the required notifications to all Building Unit Owners within the Buffer Zone Setback were sent and was available for meeting and/or consultation. Bayswater received one (1) request for consultation: the property owner to the east had questions about the number of wells to be drilled, the status of his minerals, noise impacts, and drain tiles. Bayswater advised the property owner of his mineral interest in all proposed wells, sound walls will be used, and the drain tiles have been located. All concerns were addressed to their satisfaction. This letter serves as Operator Certification that Bayswater has complied with COGCC Rule 306.e.

Bayswater respectfully requests the COGCC approve the Form 2A for the G&D Hanks 27-N Pad. Many thanks for your consideration of this matter.

Respectfully,

A handwritten signature in black ink, appearing to read 'Justin Garrett', written over a light blue horizontal line.

Justin Garrett  
Regulatory Analyst  
Agent for Bayswater Exploration & Production
