Steve,

Please review the attached Field Inspection Report with a link to photos on Page 2. Emily did not find evidence of a leaking well. Please call if you would like to discuss this matter further.

Thanks,

Dave

Steve,

We do not have a recent field inspection in the system for this well. I will hold off on adding it to our orphan list until we have an inspection with some pictures.

Emily,

This is a field inspection request to be performed at your earliest convenience (I am copying Shaun). The well passed a PA field inspection in 1996. Steve indicated that there is a 6' high fence that may limit direct access from the road. I do not see anything on our COGIS map or Google Earth that would indicate a large water leak.

Thanks,

Dave

Good Morning,

I was recently looking at the well file for the above well and the last inspection report states that the well needs to be re-entered due to water leaking to the surface. Is this well on the orphan well list? Could you please let me know what if any work is planned to correct this?

Thank you,

Steve Freese
