OPERATOR COMMENTS AND SUBMITTAL

Comments To comply with the Condition of Approval listed on the Castor 8-59 19-24-12 Well API 05-123-45842, on November 17, 2017, Bison Oil & Gas II, LLC (Bison) moved a rig to the De Ford #1 API 05-123-05533, a well previously drilled and abandoned in 1955, to re-enter and properly isolate the Codell, Niobrara, and fresh water zones. Due to multiple issues that are described in the attached Expedited Approval Request, Bison is proposing to intersect the De Ford #1 below the surface casing and cement (approximately 250' TVD) from this new well drilled 10' west of the De Ford #1. Bison plans to use this re-entry as a method to properly isolate the Codell, Niobrara, and fresh water zones prior to hydraulically fracturing the horizontal well within 1500' of the De Ford #1. After intersecting the De Ford #1, Bison will washdown to the Codell and set cement plugs as originally proposed on the submitted and approved Form 6. Bison has been in constant communication with the COGCC throughout this process and has received permission to move forward with our proposed plan.

Attached please find the Rule 303.I.(2) Expedited Approval Request as well as the email correspondence with the LGD waiving the comment period. For Surface Owner waiver, please see page five of the attached Surface Use Agreement.
