CORRECTIVE ACTIONS:

1 ☒ CA# 107069

Corrective Action:

Date: 10/12/2017

Operator shall install stormwater and erosion control BMPs prior to, or at, the start of construction; therefore, the corrective action date is based off the Form 42 start of construction date.

Response: CA COMPLETED

Date of Completion: 11/06/2017

Operator Comment: Corrective action was completed in stages and is ongoing:
11/1/17 - Water truck for location as an interim action to retain fine sediment. The water truck is still in use to keep fine sediment from blowing.
11/2/17 - Sediment traps and check dams were installed.
11/6/17 - Hydromulch with a NRCS approved seed mixture was applied to the cut slopes, fill slope, and cut ditches.
11/17/17 - "As-Built" survey was generated, which shows the current disturbed area, and the proposed area for interim reclamation.

COGCC Decision: Approved pending re-inspection

COGCC Representative: This is an acknowledgement that the document was received. COGCC staff will perform an on-the-ground inspection at a future date to determine whether the installed BMPs and repairs appear to be in compliance with Rule 1002.f.

OPERATOR COMMENT AND SUBMITTAL

Comment: The well pad surface will have additional treatment to stabilize the surface. A magnesium chloride solution for use on the well pad surface and access road has been approved by the surface owner. More permanent treatment of the well pad surface is pending.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
