**Environmental****Waste Management:**

Type	Management	Condition	GPS (Lat)	(Long)
Oily Soil	Other	Adequate		
Comment	Operator is conducting a dig and haul excavation. No oily waste was observed stockpiled onsite.			
Corrective Action				Date:

**Spill/Remediation:**

Comment:	COGCC onsite for pre-excavation meeting with Noble Energy, Noble contractors, City of Greeley 8:00 a.m. - 9:00 a.m. COGCC returned to excavation site at 2:00 p.m. Operator had completed an excavation approximately 25' x 25' x 7'. Groundwater was encountered and removed from the excavation via vacuum truck for offsite disposal. Operator anticipated that south and west excavation walls were clean and obtained soil samples for laboratory analysis. Impacts remain to north and east walls. Operator will continue excavation after exposing DCP line to east of current excavation. DCP line exposure with standby is planned for 12/6/2017. Operator obtained groundwater sample for laboratory analysis prior to adding carbon and gypsum to water in excavation. Operator is backfilling excavation to grade for public safety and will reopen excavation after locating and exposing DCP line.		
Corrective Action:	Submit a Form 27 Site Investigation and Remediation Workplan for the remediation of impacted groundwater within 60 days.		Date: 02/03/2018
