Denver, Colorado 80202

Dear Mr. Calvin,

As you suggested I talked with my tenant Orville Dickey last week. We agree to allow the oil well operator to use my land lying north of the Counter 2 oil well and east of the ditch for storage of oil equipment. You can use that land during the term of the oil and gas lease as long as you build and maintain the bridge crossing the ditch and allow us to use it to get to my other land. Good luck with your plans to drill more wells.
