1 ☒ CA# 113211

Corrective Action: Non E&P Waste not properly stored, handled, transported, treated, or disposed per Rule 907A. Contact COGCC EPS staff.

Date: 12/11/2017

Response: CA COMPLETED

Date of Completion: 12/12/2017

Operator Comment: Initial clean up was done on 12-5-17. Completed on 12-12-17 Photos attached

COGCC Decision: Approved

COGCC Representative: Reinspection was completed by inspector on 12/13/2017, Inspection #688300808. Inspection #688300747 was changed prior to final submittal to address operator comment on this FIFF regarding the horizontal heater treater on the inspection that should be a propane treater.

OPERATOR COMMENT AND SUBMITTAL

Comment: Field would like to comment regarding some verbiage that was used in report. "Horizontal heater treater" has "no secondary containment" this information is incorrect. This same mistake was noted on another inspection at the BC 5-14. Unable to comment on that insp due to no CA. The piece of equipment that is being referred to (and has photo of) is a propane heater. It is not a propane process vessel and secondary containment would be unsafe due to propane vapors being heavier than air. Any small propane leak would vaporize and collect in containment resulting in ignition from the burner. Comment is incorrect and should be removed.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
