Location ID: 327399

**Photo 1:** Photo taken from the south end of the well location, facing north. Photo also shows no reclamation activities appear to have been conducted per the corrective action. Photo shows vegetation is predominantly undesirable weedy plant species such as kochia and/or Russian thistle.

**Photo 2:** Photo taken from the well location, facing east. Photo shows vegetation over the well location. Vegetation is predominantly undesirable weedy plant species such as kochia and/or Russian thistle. Unable to find evidence that reclamation activities have been conducted at the well location. This corrective action remains applicable.
