Comment: Inspections #682502340 dated 6/28/2017 and #675103888 dated 8/17/2017 required operator to remove equipment (meter shed) and reclaim tank battery location. The majority of the tank battery location appears to have had additional reclamation work conducted (appears to have been reseeded then crimped with straw), however, the meter shed equipment has not been removed per the corrective action. Original corrective action and date remains applicable.

Corrective Action:	Remove equipment in accordance to reclamation rule 1004.a, and perform reclamation in accordance to COGCC 1000 series reclamation requirements at the battery location.	Date	07/31/2017
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>
