VEGETATIVE COVER _____

Comment: Previous inspections required operator to perform reclamation on the location, drainage and areas of the access roads where stormwater degradation is occurring, ruts remain evident and vegetation has not established uniform cover. Unable to find evidence that reclamation activities have been conducted. Corrective action will remain applicable until completed.

Corrective Action:

Date **08/31/2017**

Perform reclamation on the location, drainage and areas of the access roads where stormwater degradation is occurring, ruts remain evident and vegetation has not established uniform cover. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the landowner. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.
