RE: Core Analysis Report
No. C-1 State Well
Liberty Hill Field
Logan County, Colo.

Gentlemen:

In accordance with your request, the core sampled from your well, No. C-1 State, have been physically analyzed. Determinations were made for porosity, permeability (dry gas), and residual oil and water saturations.

Data obtained from these tests are presented in tabular form on the following pages. Calculated recovery figures for the oil productive interval are presented on the left hand side of this report.

Very truly yours,

BASIN CORE, INC.
