Comment:

Corrective Action:	Previous inspections identified two large areas of degradation due to stormwater erosion that required remediated/reclamation to be conducted. Some work appears to have been conducted: Northern spill area appears to have been regraded/recontoured w/ additional topsoil brought in. Reclamation activities do not appear to be complete per the corrective action: The northern spill area, and areas downgrade/west of the fenced area of the southern spill area do not appear to have had seeding/revegetation and stabilization activities conducted. Corrective action will remains applicable until completed.	Date 08/31/2017
	Perform reclamation per COGCC 1000 series reclamation rules and requirements and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the landowner. Ensure erosion controls are implemented to stabilize the seeded soil, and monitor/manage location until FR has passed.	
Overall Final Reclamation	Fail	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Comment:	Previous inspections identified stormwater degradation had occurring on the location, and that straw wattles used as BMPs have not been maintained, are in disrepair and is debris. These inspections required operator to properly select, install and maintain BMPs. Work appears to be in process, however wattle debris remain onsite, and stormwater controls have yet to be implemented. Corrective action will remains applicable until completed.					Date: 08/31/2017
Corrective Action:	Remove debris. Properly select, install and maintain site specific stormwater and sediment control BMPs per good engineering practices and 1002.f to prevent further degradation to the location. BMPs shall be maintained until final reclamation has passed.					
Pits:	<input type="checkbox"/> NO SURFACE INDICATION OF PIT
