Arcadia, California

Dear Sir:

We have received your intention to drill the No. 2 Lennie F. Johnson in the SE SE Section 20, 8N, 54W.

There is some confusion that exists due to a well being drilled by E. K. Bludworth in the same location. This well was drilled by Bludworth with some connection with Gem Oil Company. We have on file a plugging report filed by Douglas Drilling, but no completion report.

We would like to receive a completion report on the well designated as the No. 1 Lennie F. Johnson and a clarification on the No. 2 well as to whether this is a new well or the reentering of an old hole.

The intention to drill the No. 2 well will be held until we receive details on the situation.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION  
OF THE STATE OF COLORADO

DVR:mmm
