**COMMENTS**

A review of data on the COGCC website and contact with landowners in the area indicates there are no available water sources for sampling.

There are three water wells located within the sampling range. However, one of these wells is abandoned and the other two are injection wells. There are also two previous sample locations nearby, but these are outside of the sampling range. Please see attached maps for reference.

This sundry is for all wells on location #452695
