<p align="center">Complaint</p> <p>Comment: Well Number#: Location #: 452217</p> <p>Inspection Document #: 674200357</p> <p>Complaint #s: 200444774</p> <p>Nature of complaint: Odors/Noise</p> <p>Field Inspector Actions:</p> <p>On 12-18-2017, I was contacted by complaint specialist Megan Adamczyk in reference to complaints received on 12- 15-2017 and 12-18-2017 by the COGCC about odors and noise occurring in the Greeley area in the area of the Extraction, Triple Creek location. I made contact with the complaints on 12-18-2017. The complaints indicated they were experiencing loud vibrating noise and odors coming from the Extraction Triple Creek location. One complaint was concerned of emissions coming from the location as well as the odors coming from location.</p> <p>On 12-18-2017 at approx 1100 hrs I performed a complete site inspection of the Triple Creek location and the neighborhoods around the location. At the time of inspection, I observed normal flow back operation on location. I contacted Extraction staff on who indicated the flow back operation was performing normal flow back activity at the time of the complaint. Extraction staff indicated they had installed and a new ECD on location at the time of the noise complaints Extraction staff indicated this could be the source of the noise and they indicated they would remove this ECD if they could not make adjustments to it to control the noise from this ECD.</p> <p>At the time of the inspection I observed several large ECD's being used in the flow back operation on location. These ECD's appeared to be burning correctly as I did not see any sign of opacity issue with any of the ECD's.</p> <p>As part of the inspection prior to the location inspection I checked the area of the complaints residence for odors and at the time of the inspection I did not detect any odors off location during my investigation.</p> <p>All information reviewed and site inspection information were submitted to the COGCC for further review.</p> <p>No violations of COGCC rules were observed at the time of the inspection</p>			
Corrective Action: Adjust or shut in ECD this was completed at the time of the inspection			Date: 12/18/2017
