## 1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment This location is not in compliance with Rule 1003.b. standards. Operator has failed to perform interim reclamation to reduce disturbance areas only reasonably needed for production operations. First production date was 5/24/2013 (Form 5A Doc.# 400433279); therefore, interim reclamation should have been completed by 11/24/2013. This location is over four (4) years out of compliance. Refer to the attached inspection photos for more detail.

Corrective Action Perform reclamation in accordance to Rule 1003 standards. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until the location meets Rule 1003 standards. Interim reclamation activities shall be complete no later than April 30, 2018.
