Comment: Rangeland, COGCC records show well PA 1/2/2002. This location does not meet reclamation regulations; insufficient vegetative cover. Large areas throughout the location and pit remain unvegetated and predominantly bare and exposed soil. See attached photo document.

Corrective Action: \_\_\_\_\_ Date **03/31/2018**

Perform reclamation in accordance to COGCC 1000 series rules and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall be complete no later than 3/31/2018.
