 VEGETATIVE COVER _____

Comment:

	<p>Previous inspections required operator to perform additional reclamation including, but not limited to, compaction alleviation and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels at well and battery locations. Unable to find evidence that additional reclamation activities have been conducted at the well location: well location remains predominantly undesirable weedy plant species such as kochia. Unable to find evidence that additional reclamation activities have been conducted at the battery location: battery remains predominantly bare and exposed soil. Compaction concerns remain evident. Adjacent reference areas appear to be perennial alfalfa cropland.</p>	
Corrective Action:	<p>Perform reclamation in accordance to COGCC 1000 series reclamation requirements including, but not limited to, compaction alleviation and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels at well and battery locations. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.</p>	Date 06/30/2017
<p>Overall Final Reclamation Fail Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/></p>		

COGCC Comments		
Comment	User	Date
<p>This is the 5th inspection since 7/14/2016 documenting that location does not meet COGCC 1004 reclamation requirements, and requiring reclamation to be conducted.</p>	trujilloam	01/12/2018
<p>Comment copied from prior inspection:</p> <p>Inspection Doc. #682401039 dated 7/14/2016 documented that location does not meet reclamation requirements and required operator to collaborate with the surface owner and submit an agreed upon schedule of reclamation operations. Noble submitted sundry doc. #401101470 on 8/30/2016. Noble did not submit an agreed upon schedule per the corrective action with this sundry, however, Noble did state final reclamation activities will begin on 12/12/2016, with work being completed approximately 12/22/2016.</p> <p>In inspection Doc. #682502292 dated 6/20/2017, it was documented that reclamation concerns still remain throughout the location, and it was unclear if additional reclamation activities had been conducted per the 8/30/2016 Noble sundry document. Inspection Doc. #682502292 required operator to submit documentation and invoices for reclamation work conducted as indicated by the 8/30/2016 Noble sundry document. Noble submitted sundry doc. #401338076 on 7/11/2017 as per the corrective action. Noble included invoices for work conducted on location. It was noted, however, that no documentation or invoices had been provided that indicated additional reclamation work had been conducted.</p>	trujilloam	01/12/2018
<p>Comment copied from prior inspection:</p> <p>Operator states within sundry doc. #401338076, that surface owner had conducted work post removal of facilities. Operator remains responsible for all reclamation work conducted on the location, and that such work is performed in accordance to COGCC reclamation requirements including by not limited to compaction alleviation (cross-ripping) to a required depth of eighteen (18) inches and all disturbance areas have revegetated to reference area levels.</p>	trujilloam	01/12/2018
