**Comments:**

The Kitzmiller Grazing Association 1 was spudded July 12, 1977, then abandoned and plugged within the same month. As of January 10, 2018, this site is and has been native grass pasture land. In the one photograph near the location you will see an indentation in the land. It is not from the drilling, it is a low lying area in the pasture land that collects water during heavy rains. Please see pictures.
