STATE OF  
COLORADO

Rouse - DNR, James <james.rouse@state.co.us>

## Docket Nos. 170700463, 464, 465, 466, & 467 - Longs Peak

1 message

Rouse - DNR, James <james.rouse@state.co.us>

Mon, Jun 19, 2017 at 10:14 AM

To: "Parrot, James" <jparrot@bwnenergyllaw.com>, "Fulcher, Jill" <jfulcher@bwnenergyllaw.com>, "Bekkedahl, Evan" <ebekkedahl@bwnenergyllaw.com>, "Go-Hoveland, Grace" <GGoHoveland@bwnenergyllaw.com>, "Peterson, Tracy" <TPeterson@bwnenergyllaw.com>

Cc: Peter Gowen - DNR <Peter.Gowen@state.co.us>, Margaret Humecki - DNR <margaret.humecki@state.co.us>, Jane Stanczyk - DNR <jane.stanczyk@state.co.us>, "Westerdale - DNR, Barbara" <barbara.westerdale@state.co.us>

The following docket numbers are continued to the Commission's September 11-12, 2017 hearing:

170700463  
170700464  
170700465  
170700466  
170700467

Applicant was previously advised that the applications need to be amended to add the Fort Hayes and Carlile Formations. Four of the applications were amended to request additional wells for the Fort Hayes and Carlile. We do not have an amended application for Docket No. 170700463.

However, before the Commission can increase the number of wells in a drilling and spacing unit, there must be a drilling and spacing unit in existence. Therefore, seconded amended applications must be filed that request the creation of drilling and spacing units for the Fort Hayes and Carlile Formations, in addition to approval of the increased number of wells. We also need amended notices that reflect the requests and utilize the language and formatting we are currently using. A sample will be sent under separate e-mail.

James P. Rouse  
Hearing Officer
