Subject: RE: State Reportable Release

I need to make a correction. The release was discovered beneath the oil storage tank and not the produced water vessel. My apologies.

Subject: State Reportable Release

Good Afternoon,

We discovered a State reportable release due to impacts to groundwater while removing the partially buried produced water vessel associate with the well noted below. More information will be provided in a forthcoming COGCC Initial Form 19 Release Report. As always, please contact me if you should have any further questions or concerns. Thank you

Well: Hatch UPRR 42-11 #1
