Inspection Photos
Location Name: RIDER #1
API: 05-013-06096

Google Earth aerial imagery taken June 9, 2017 illustrating the Rider #1 access road and well location.

Inspection Photos
Location Name: RIDER #1
API: 05-013-06096

Photo 1. Photo taken from the northern well location on June 6, 2017, facing East. Does not appear final reclamation activities have been performed based on the lack of grass species and the abundance of weedy annuals, mostly Kochia.

Photo 2. Photo taken from the northern well location on March 2, 2018, facing East. Final reclamation activities have not been performed per the previous corrective action inspection. Appears weedy annual vegetation, Kochia, has been recently mowed. Operator has submitted a Final Reclamation variance request from portions of Rule 1004.
