CORRECTIVE ACTIONS:

1 CA# 87982

Corrective Action: Since the spring seeding window has passed, revegetation activities shall be complete no later than 11/15/17. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.

Comment:

In August 2017, PDC began corrective action reclamation activities at the Matt #1 former tank battery location. At the request of the surface owner, PDC was asked to not complete reclamation activities at that time. Subsequently, in September 2017 the surface owner discovered additional subsurface contamination and PDC began remediation activities. After remediation activities were complete, PDC reclaimed the former tank battery location to the surface owners specifications (which included seed mixture), and to COGCC Rule 1004.a requirements. Attached are copies of the reclamation invoices for the former Matt #1 tank battery.
