General Comment:

Environmental**Spill/Remediation:**

Comment: COGCC met Extraction personnel onsite to view area affected by the fire and spill of 12/22/2017 and to discuss and witness soil sampling. Extraction indicated that investigators for several parties retain control of the site, which prohibits access to removal of impacted pad material. Extraction will submit results of today's soil samples via Form 19 Supplemental Report and include an estimated timeframe for cleanup. Photos of soil sample locations attached.
