## OPERATOR COMMENTS AND SUBMITTAL

Comments

The SHL of the Existing North Platte U-Y-28HNB (API #: 123-37063) was used as the lat/long for this pad.

The reason for the Amended 2A is to add 9 additional wells to the Location. This 2A is also intended to modify the location so as to no longer include the portion of the "pad" located southwest of the lease road and containing the Huck 41-28 well (API: 123-21882). Bonanza Creek intends to submit a "new" form 2A within a reasonable timeframe to this OGLA to create a separate location for the Huck 41-28 well and facilities for production and reclamation purposes.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
