FIELD INSPECTION FORM

Loc ID 385403 Inspector Name: Hughes, Jim On-Site Inspection 2A Doc Num: _____

Status Summary:

- THIS IS A FOLLOW UP INSPECTION
- FOLLOW UP INSPECTION REQUIRED
- NO FOLLOW UP INSPECTION REQUIRED

Operator Information:

OGCC Operator Number: 56530
Name of Operator: MERIDIAN OIL INC
Address: PO BOX 4289
City: FARMINGTON State: NM Zip: 87499

Findings:

- 6 Number of Comments
- 0 Number of Corrective Actions
- Corrective Action Response Requested

<p>On March 7, 2018 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the Meridian Oil Inc. Hodges Pool Unit #1. For the most recent field inspection report of this facility, please refer to document #500147001. The purpose of this site visit was to determine the status of Pit Facility ID #115730.</p> <p>During this field inspection a cathodic protection well in the northwest corner of the location was observed releasing fluids from a PVC pipe. The anode cables have been cut off and the well is sitting in a pool of water. This well is now registered with the DWR. The permit number is 289680. The permit estimates the depth at 450'. The construction logs state that the well was drilled to a depth of 500'.</p> <p>An engineering brief (Document #1857797) in the COGIS database well file provides some history about this cathodic protection well.</p> <p>Pit Facility ID #115730 was not observed during this field inspection. Pit report (Document #656752) documents a 25 by 25 by 6' deep existing evaporation pit located near the separator/dehydrator.</p>	hughesj	03/20/2018
