Re: Request to access State land
State Crazy Horse #1 well, NESE Sec. 29, T5N, R61W, 6th PM
API 05-123-19927

Dear Mr. Freese,

Bonanza Creek Energy would like to request permission to use the surface location of the State Crazy Horse #1 ("Well") in order locate and plug said well.

Bonanza Creek Energy intends to locate, re-enter and re-plug the Well, in accordance with the DJ Basin Horizontal Offset Policy, as set forth by the Colorado Oil and Gas Conservation Commission ("COGCC").

The Well will be plugged in accordance with the lease rights granted by the State of Colorado. A 100' x 100' area surrounding the surveyed location of the Well, will be designated as the disturbance area. Once the Well is located a 150' x 150' pad will be designated as the pad location for plugging operations. If the well cannot be located in the 100' x 100' disturbance area the Bonanza Creek Energy will cease operations and contact the State Land Board to discuss further efforts to locate the well.

Upon review of oil and gas lease no. OG 1175.10, Bonanza Creek Energy has acknowledged the lease stipulations regarding surrounding Bald Eagle habitat, and has met with a representative from the Colorado State Land Board to discuss siting of access, exploration operations, and rig placement. Bonanza Creek Energy intends to accommodate any timing or location issues that may affect its plugging operations.

Enclosed please find a satellite photo depicting the potential location of the State Crazy Horse #1 well located in the NESE Sec. 29, T5N, R61W. A surveyed plat will be provided once it has been completed by the survey company. Please let us know if you would like to set up a consult to view the pad site. Should you find the location satisfactory, please sign and return the attached acknowledgement. If you have any questions, please do not hesitate to call or email me.

Sincerely,

Ariana Solis

Good afternoon Steve,

Thank you for your recent inquiry on this parcel (see map below).

Unless DWM Brandon Muller (cc'd) has any concerns, I do not show any mapped concerns in Section 29, esp. no bald eagle nesting or roosting habitat in this section.

Thank you for the opportunity to comment on it.

Regards,

Brandon B. Marette
