Aaron,

Laramie has approval to sidetrack. Verbal approval to proceed is contingent upon the assumption that the BHL and wellbore path remain at a legal location for completion (COGCC permitting staff will evaluate prior to formal approval of the forthcoming Application for Permit to Drill a Sidetrack Wellbore, Form 2). If the BHL or the productive portion of the sidetrack wellbore extends into locations that are not legal, then Laramie may have to plug back portion(s) of the well that are not legal or obtain waivers from offset mineral interests.

Sidetrack approval and reporting document is attached.

Thanks

Craig,

I agree. It sounds like there is now more than one wellbore.

Aaron, please see and follow our guidance for unplanned sidetracks while drilling. It is found on our website under Regulations/Forms/Form 2 instructions/Unplanned Sidetrack while drilling: Approval and reporting process Statewide.

Thank you,

Sarah
