 Report of work done on well since previous report

November 16

1951

Following is a (notice of intention to do work) (On land)  
 (~~report of work done~~) (patented) described as follows:

Colorado	Logan	Merino
State	County	Field
J-15	Schrader	20 (SE 1/4 NE 1/4 SE 1/4)
(Well No.)	(Lease)	(Sec. and 1/4 Sec.)
		6N 54W 6th
		(Twp.) (Range) (Meridian)

The well is located \_\_\_\_\_ ft. (N) of \_\_\_\_\_ and \_\_\_\_\_ ft. (E) of \_\_\_\_\_  
 (S) (W)

To be furnished later.

The elevation above sea level is/ \_\_\_\_\_ ft.

Details of Plan of Work: (State names of and expected depths to objective sands:  
 Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cement-  
 ing points, and all other important proposed work.)

We propose to drill a well using rotary tools on the above described location, the well to be known as Schrader J-15.

It is expected that approximately 150 feet of 10-3/4" OD, 32.75#/ft., H-40, 8 RT casing will be landed and cemented to the surface. This well will be drilled to the "J" sand of the Dakota formation, which is expected at approximately 5060 ft.

If commercial production is encountered, a production string consisting of 5-1/2" OD 14# J-55, 8 RT. casing will be set thru the producing formation and cemented with 150 sacks of cement. The productive zone will then be perforated.

All measurements will be taken from the Kelly Bushing.

Approved:
