Good Morning Jim,

To give you an update of addressing the CA in the reference inspection at the Jacobs, we are addressing this clean-up today. We will remove stained gravel/soil using shovels and 5-gallon buckets. This area of stained soil/gravel should be removed by tomorrow. We will store the soil with other stained soil that is pending removal to an approved waste facility. New gravel will then be replaced by the 5/7/2018 deadline. Please let me know if this clean-up method is satisfactory. Please also call if you would like to discuss.

Thanks,

Amanda
