Caerus is currently evaluating every ongoing and planned project that Encana had in the pipeline. Once Caerus

Operator Comment: has internalized and assessed each project they will move forward with them, including the J26NWB P&A. But at this time no work has been completed on the J26NWB P&A, and that is why the COGCC never received a revised 48 hour notice. The COGCC can expect to see an updated Form 42 in the coming weeks and Caerus will provide at least a 48 hour notice prior to any plugging operations commencing.
