## Comment

This location is not in compliance with Rule 1003.b. Operator has failed to perform interim reclamation activities on areas not needed for production operations within three months on cropland, violating Rule 1003.b. The latest Date of First Production for wells on location was September 2, 2017 (Well API 05-123-43970; Form 5A Doc.# 401527776), indicating that no ongoing operations are required at the Location as of that date. Operator was required to perform interim reclamation no later than December 2, 2017.

Operator claims that a different Operator pipeline is being constructed along the eastern location and supplies/equipment are being stored on location, and this is the reason for holding up reclamation.

## Corrective Action

Comply with Rule 1003.b. immediately. Corrective action is being back-dated to the required due date.
