5/11/2018

SCES on May 8, 2018 sprayed 29-09 SD-2. We observed and sprayed a small colony of scotch thistle rosettes on the right of way to well pad. There was a couple of Mullen rosette above the pad on the power line. The pad and rest of the right of way was clear of invasive weeds.

SCES on May 9, 2018 went down reclaimed road to the reclaimed pad of GE 28-16. We observed and sprayed diffuse knapweed outside of the pad and a few plants within the reclaimed area of the pad.

SCES on May 9, 2018 went down right of way and ended up on the pad of GE Mine 45-89. SCES observed Mullen, scotch thistle, horehound which was treated with trump card and Telar XP.

If you have any questions, please let me know.

Sincerely,

Johnnie Hamilton
