**Complaint**

Comment:

Field Inspector Assigned: Jason E. Gomez

Complaint Received:

Date: 4-27-2018

Complaint Contacted:

Date: 4-27-2018 Time 1200 Hrs

Location #: 432988

Inspection Document #: 688400169

Nature of complaint: Venting gas

Field Inspector Actions:

On 4-27-2018, I was contacted by COGCC staff in reference to a complaint received by the COGCC in reference to possible venting gas from a location located south east of the Union reservoir.

On 4-27-2018 I went to the SRC Energy Union 11-5D location located SE of Union reservoir. Upon arrival I observed a SRC lease operator making repairs to a horizontal separator on location. I spoke with the SRC pumper who indicated she was making the repair to the separator due to a malfunction of the separator, she indicated when she arrived the separator was venting gas on a (PRV) pressure relief valve on the separator. After speaking with the lease operator I performed a complete site inspection on the Union see inspection document # 688400169 for detail of inspection

No violation of COGCC rules were observed at the time of the inspection.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.
